

Cultural Humility: History, Poetry, Power and Privilege - Part 2 of 4

Video Discussion Questions

What are the events that bring us to the table and bring us together? (i.e., our own “Rodney Kings”)

What do you see as the similarities between cultural humility and the peer movement? How are they different?

How do we create opportunities for those coming to the RITF to show us what is **not** in our knowledge base? Especially people with substance use disorder background? People of color? Young People? Other groups we are missing?

What else stands out from this video or discussion that we could apply to the RITF?
