

Attending- Aaron Rasch, Lalena Lampe, Maria Hanson, Bob Fredericks, Ellie Jarvie

Proposals open for the 2017 conference. Ellie can put the link for 2017 presentation on the website. Maria mentioned that recovery was not a concept that only 3 people were aware of recovery in her presentation for Sanctuary 101 in an audience of about 30 at the statewide mental health and substance use conference.

Aaron will discuss offering recovery education at the recovery education committee.

1. Review minutes from 9/30 - minutes reviewed, no concerns from those on the call
2. Review November 18th agenda - edits made
3. Discussion on strategic planning (facilitators, approaches, input from others) - there will be a call for a workgroup at the next RITF meeting
4. Membership committee ideas - not addressed on the call. There is an employer letter started by Shelly that could be a membership project. We continue to have visitors and many people discussing membership. The RITF display and sign generated interest at the conference earlier this week.

Discussion on the Recovery logo displayed at the mental health and substance use conference earlier this week- this was displayed on a large banner, bumper sticker and window cling. Some people had strong opinions on this logo, especially the first letter which was listed as an "RX". Some members will think about next steps. Ellie will work with Jason to help him to continue to see the RITF as a resource for feedback as the advisory body to DHS on recovery.
