Date: 111816, 9-11:30 AM

**Dept. Agriculture, Trade &
Consumer Protection**

2811 Agriculture Drive

Madison, WI

HCI COMMITTEE MEETING

MINUTES

Introductions (HCI Team)

Introduction:

Angie R- Guest

Minutes of 091616 (HCI Team)

Minutes of 091616 reviewed, approved, accepted.

Other Hospitals Options Update (Maria/Bob)

Ministry Door County

Gunderson La Crosse

Door County is no longer an option due to lack of CEO buy in. Gunderson Lutheran LaCrosse is interested in getting a CPS in their ER. They are interested in forming a Committee and proceed with partnering with HCI Team. They had a CPS in the past but funding ended. They would like us to help them look for funding resources. Currently, they are funding a SW or RN from behavioral health to work evenings in the ER. Bob has a hospital who would be interested (Memorial Medical Center Ashland, WI), however, they have been unable to fill their CPS position vacated by Bob (FT/15\$/hr.).

Audit Tool Update (Maria)

Gunderson Lutheran has an audit tool that we can utilize/modify.

CEO Buy In (HCI Team)

Discussion: How to facilitate CEO Buy-In:

We need to address data/numbers, money that could be saved; decrease admission rates, post engagement factor, decrease restraints, decrease violence, and CPS can be instrumental in modeling recovery to ER staff. Michael shared how close the Wellness Shack came to closing until the community recognized the value.

Legislative Items (Bob)

SU-the hope legislation passed a couple years ago. SU money is coming to the state to fund treatment and prevention with a focus on rural areas and ages across the lifespan.

HCI Members Updates

Bob: Presented PCP at the October MHSA Conference. Bob recommended that HCI become more involved with the Children Come First Conferences sponsored by WI Family Ties (WFT) & to pay more attention to this age group.

Michael: attended CCS Training to provide surveys in Menomonie. He is also planning on joining the CCS Coordinating Committee. The Wellness Shack in EC- is continuing!

Maria: Presented Sanctuary at the October MHSA Conference. The Leadership Train the Trainer Program at MMHI is beginning 1-3-17. Discharge Planning has been successful for 3 cycles.

Erica: Trempealeau Co. opened a new MH center with more than 700 people at the open house. They received \$100,000 grant to implement a Tablet Program that has 8-10 core apps for MHSU Resources and self-care. They are looking at treatment for SU center options.

Donna: Partnered with WinTip on a tobacco cessation project for this year APNA in October.

Angie: Discussed the value of CPS in the ER's.

Plan (Maria)

Maria will talk with Shel Gross re: ideas for obtaining pertinent data and connect with Kayla at GL to set up a meeting with her to address possible barriers and potential solutions.

Next Meeting : January 20, 2017
